computational approaches in
chlamydomonas pdf - HMMER is
used for searching sequence
databases for sequence homologs,
and for making sequence
alignments. It implements
methods using probabilistic
models called profile hidden
Markov models (profile HMMs).

Metabolic Engineering - Journal -
Elsevier - Arabidopsis thaliana,
the thale cress, mouse-ear cress or
arabidopsis, is a small flowering
plant native to Eurasia and
Africa. A. thaliana is considered a
weed; it is found by roadsides and
in disturbed land.

Arabidopsis thaliana - Wikipedia - Same-sex.
In recent decades, developmental
biologists have been researching
and developing techniques to
facilitate same-sex reproduction.
The obvious approaches, subject
to a growing amount of activity,
are female sperm and male eggs,
with female sperm closer to being
a reality for humans, given that
Japanese scientists have already
created ...
